MEMORANDUM FOR: Administrative Officer
Office of Legislative Liaison (OLL)

FROM:
Chief, Technical Security Division

25X1

SUBJECT: Cellular Telephones

It has come to our attention through Technical Surveillance Countermeasures inspections that Agency personnel having Cellular (cordless) telephones are bringing these telephones to Agency briefings held on Capitol Hill. The attached notices refer to the security vulnerabilities inherent in these telephones. Because of the security hazards associated with these telephones, it is requested that they not be carried into areas where classified discussions take place. Please advise personnel in your office of this matter and request their cooperation to eliminate both a serious technical security hazard and potentially a very embarrassing situation.

ACQUISITION OF CELLULAR TELEPHONES

No Field Counterpart to this HN

1. There have been a number of recent incidents where components have ordered new cellular telephones directly from vendors. This notice reminds Agency components that such direct acquisitions are not authorized and should not be made.

2. The Office of Information Technology (OIT) must give prior approval before staff communications equipment is acquired. All requests for the acquisition of staff communications equipment or services domestically must now be forwarded to the Chief, Domestic Networks Group, OIT. Strict adherence to this requirement is imperative in order to ensure that ~~cellular telephones are operationally compatible with existing communications systems and that their total lack of security is understood.~~

3. Purchase requests for cellular telephones must be initiated by, or have concurrence of, the component's logistics officer and must be funded by the requesting component. OIT is the accountable office for this equipment and will issue it as a hand-receipted item to those offices using cellular telephones.
